## Medical Intelligence Technologies inks distribution deal with Britain's Masternaut

### The Gazette

Published: Tuesday, August 12

Quebec City's Medical Intelligence Technologies Inc., specializing in mobile telesecurity systems, said today it has licensed Britain's Masternaut Three X to distribute its GPS-based Urgentys emergency buttons for workers operating in remote locations.

The deal is worth \$440,000 and includes an initial equipment order for delivery soon.

The Urgentys system is robust and best-in-class and will be integrated with Masternaut's mobile resource management products, said CEO Martin Port.
